

Envision

A voluntary sustainability program to protect local quality of life and the environment

How Will Envision Measure Our Performance?

Quality of Life

- Enhance Public Health & Safety
- Minimize Construction Impacts
- Advance Equity & Social Justice
- Preserve Cultural Resources
- Enhance Public Space & Amenities

Natural World

- Manage Stormwater
- Enhance Surface & Groundwater Quality
- Enhance Wetland & Surface Water Functions
- Control Invasive Species
- Protect Soil Health

Climate & Resilience

- Reduce Air Pollutant Emissions
- Reduce Greenhouse Gas Emissions
- Maximize Resilience

Resource Allocation

- Reduce Waste
- Use Renewable Energy
- Reduce Energy Consumption
- Reduce Water Consumption
- Monitor Water Systems

Leadership

- Establish a Sustainability Management Plan
- Develop a Sustainable Project for the Community
- Stimulate Economic Development
- Help the Local Workforce Grow and Develop

Envision assesses project performance AND how well the project contributes to **long-term sustainability** of neighboring communities.
